

INTERIM POOL RULES

Whereas, on May 12, 2020, Governor Ducey signed Executive Order 2020-36.

Whereas, on May 12, 2020, Governor Ducey, pursuant to Executive Order 2020-36, issued “Guidance for Pools” (GP) stating that “to the extent possible, community pool operators should take measures to ensure that customers may follow certain guidelines.

Whereas, the GP also issues guidance “for businesses” and “recommends additional steps be taken by those operating community pools.”

Whereas, Executive Order 2020-36 provides that “any business, whether for-profit or non-profit... shall develop, establish and implement policies based on guidance from CDC, Department of Labor, Occupational Safety and Health Administration (OSHA) and ADHS.”

Whereas, GP does not appear to be drafted with community associations in mind. Notwithstanding, the guidance therein is relevant in part to the operation of the Association’s community pool

Now, therefore, the Board of Directors hereby adopts the following Interim Pool Rules in furtherance of Executive Order 2020-36.

1. All owners, residents and invitees (collectively referred to herein as “Pool Users”) must comply with GP, incorporated herein by this reference and attached hereto.
2. All pool users must stay home if sick.
3. All pool users who are at a higher risk for severe illness should avoid the pool. People at higher risk for severe illness include adults 65 or older and people of any age who have serious underlying medical conditions.
4. Pool users should not touch their eyes, nose or mouth.
5. After leaving the pool, use hand sanitizer. When pool users get home, wash hands with soap and water for at least 20 seconds.
6. This Interim Pool Rule does not replace any existing pool rules but serves to supplement the same.
7. Bring sanitizer to disinfect any and all items you touch in the pool area.
8. **This Rule may be amended upon receiving further guidance from government health officials.**

DATED this 21st day of May, 2020.
