

GOLF BALL NETTING GUIDELINES

Golf ball nets may be installed on Golf Course Lots with rear yards adjoining San Marcos Golf Course. Golf ball nets must be approved by the Architectural committee and meet the following guidelines:

VERTICAL POST

Vertical post must be made of square steel tube with a minimum dimension of 3" square. Post must be embedded or attached to a concrete foundation. Post must be black in color and not exceed the height of the home.

NETTING

Typical golf rope netting will be used, netting must be black in color and fastened at the top and bottom of the net using wire rope tensioned from post to post. Horizontal post at any elevation will not be allowed.

MAINTENANCE

Structure must be maintained in good condition with no tears, holes or sagging in the net. Maintenance of structure is subject to Article X part 10.3 of the CC&R's.

ENGINEERING

Homeowner is responsible for all engineering associated with the structure, specifically foundation sizes, post size, post thickness, spacing, cabling sizes, etc. These guidelines are for architectural purposes only.
