Exterior House Paint Colors

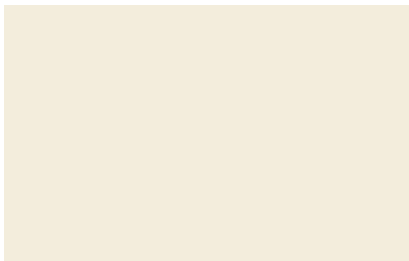

***approved as of June 2026**

The Association has approved a new exterior paint color palette that provides homeowners with greater flexibility when selecting body and trim color combinations.

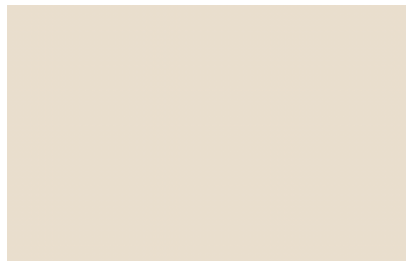

Homeowners planning to repaint the exterior of their home are encouraged to view actual paint samples of the approved colors before making a final selection. Paint colors can appear significantly different in person depending on lighting conditions and surrounding materials.

Homeowners are to submit an *Application for Design Review* to the Architectural Committee (AC) for review and approval of their proposed exterior paint colors before any painting begins.
